lab1a.ipynb and lab1b.ipynb

1. Copy "lab1a.ipynb" and "lab1b.ipynb" to notebooks folder. For example, C:\WinPython-64bit-3.4.3.5\notebooks.
2. Start IPython Notebook by double clicking on "IPython Notebook.exe".
3. Click on "lab1a.ipynb" to open it in a new browser tab.
4. Type your code answer in the "code cell" labeled "In [ ]".
5. Press Shift+Enter to run a cell.
6. Repeat the processes for "lab1b.ipynb".

Deliverable

1. After you have finished answering all questions, click on File > Download As HTML (.html) to create a html file.
2. Click on Cell > Run All. Make sure that there is no error.
3. To print, click on File > Print Preview. Finally, use your browser print menu to print the file. You need to submit the hard copy on the due date (in class).

Good Luck!
